For K-5 students, the district does set transportation boundaries for the Raleigh Academy and for North Star Academy to help facilitate the most effective transportation options for students

When a K-5 student, that utilizes bussing as their transportation to and from school, moves out of the bussing area of one of our buildings and into the bussing area of the other building (Raleigh to North Star or North Star to Raleigh), the student is expected to transfer to the DECS School in the bussing area in which they leave.

Exceptions to these boundaries can be requested via the Head of School.
